### Another year worth celebrating 🎉

Greenpeace Australia Pacific has had an exciting year, and it's one that comes with lots of cause to celebrate! I'd like to say a massive thanks to all of you for another year of generosity. Without our supporters, Greenpeace wouldn't have been able to accomplish any of the great feats we did this year, and all our staff are incredibly grateful to you.

As well as updates on our big campaigns, this edition of Evergreen also features interviews with celebrated author, Di Morrissey, and fellow Green Guardian and former Greenpeace employee, Caroline McDaid.

I hope you enjoy hearing about the year we've had at Greenpeace Australia Pacific. This newsletter is a very small and humble way for us to show you our appreciation for your support. Thank you for choosing to immortalise your legacy with Greenpeace.

### Read about our successful AGL Campaign

This year we've been taking on Australian energy giant, AGL. By a combination of engaging with AGL shareholders, going to the streets with creative confrontation, and even tackling a lawsuit, we've been able to damage AGL's reputation and force them to adopt better practices.

If you'd like to get the full story behind this revolution, check out our new documentary - *Power Play*. It's a story about how a diverse group of people and organisations, took on Australia's biggest climate polluter - and won.
