“ You’ve made a great investment in the future of the planet, thank you. You are now part of the global Greenpeace community and together our actions will drive positive change. ”

Our Mission

Our goal is to ensure the ability of the earth to nurture life in all its diversity. Greenpeace uses non-violent creative confrontation to expose global environmental problems and provide solutions for a green and peaceful future. We can achieve this by remaining independent. We do not accept funding from corporations or political parties, which is why your support is so valuable to us. Thank you for taking action.

Our Values

Action

Following similar non-violent direct action principles as the mass civil disobedience in India led by Gandhi and the lunch counter sit-ins of the US civil rights movement, our peaceful actions resonate across boundaries.

Bearing Witness

We work on the notion of ‘bearing witness’ to environmental destruction and raise awareness to bring public opinion to bear on decision makers.

Solutions

At Greenpeace we research, document, educate, mobilise, lobby and inspire. We approach our campaigns from many levels to expose environmental problems and provide sustainable solutions.
